

SMOOTH THE PEAKS

Alleviate the burden of high deductible policies

Deductible Reimbursement

As traditional carriers continue to lower their claims exposure, deductibles continue to grow and place a greater burden on the insured. For businesses with an insurance policy or policies covering seven or more individuals, autos, buildings, etc. SRA's Deductible Reimbursement product allows companies to accumulate tax-deferred reserves to lower the burden on cash flow that a large deductible can create at a time when it's needed most.
